

Do you have a budding oceanographer in your family? This program is for them!

Youth ages 12-15 are invited to join us for a **FREE**
3-day **Exploring Oceanography Program**

Led by Jim Remillard, Retired Science Dept. Chair for St John Paul II High School

- ❖ Collect water samples. Measure temperature, salinity, oxygen, and pH
- ❖ Develop skills to format spreadsheets & create charts from field data
- ❖ Perform daily plankton tows. Identify & photograph plankton
- ❖ Prepare & present your work to families & friends during an evening program

Sessions:

Tues, Wed & Thurs July 21-23, 2026
from 9:30am-12 pm

-- and --
